PERSONAL PROFILE

Enthusiastic MCA student skilled in frontend development, UI design, and responsive web technologies. Hands-on experience with HTML, CSS, JavaScript, GitHub and AI tools. Quick learner with strong communication skills and a passion for teaching and creative problem-solving.

PROJECTS

E-Commerce Website with FormSubmit

- Developed a fully responsive e-commerce website with product listings and a simple cart-like interface.
- Integrated FormSubmit to handle contact form submissions without any backend setup

Fitness Application (Personalized Workout Generator)

- Created an Android app that generates personalized workout splits based on the user's age, fitness goals, and health condition.
- Designed clean and user-friendly interfaces using XML.
